

GENTLEWAVE® PROCEDURE:

ROOT CANAL THERAPY TO OPTIMIZE PATIENT OUTCOMES AND PRACTICE INCOMES

Sound Science®
ACADEMY

INTENDED AUDIENCE

General dentists looking to learn the latest advancements in root canal therapy including the GentleWave System.

COURSE OVERVIEW

This course will show you how to leverage technologies such as the GentleWave System to clean and disinfect even complex anatomies with minimal instrumentation. Training will discuss managing complexities with consistency and predictability as well as incorporation of a one-day treatment model.

COURSE OBJECTIVES

- Review standardization in RCT protocol and the integration of technology to include the GentleWave Procedure, files, sealer, and other instrumentation
- Understand how to create a one-day treatment workflow for RCT, which includes evaluation, diagnosis, anesthesia, decay removal and restoration
- Discuss the GP and Endo referral relationship and how to partner to best serve your patient population
- Review the economic impact of implementing a one visit model into your practice
- Apply learnings in a hands-on clinical lab with instructor oversight

COURSE INSTRUCTORS

Scott Sayre
DDS

Dr. Sayre graduated from Ohio State University College of Dentistry. He is a Diplomate on the American Board of Oral Implantology and the International Congress of Oral Implantologist. Dr. Sayre has written numerous published articles and has lectured in Canada, Hong Kong, and Venezuela (as well as throughout the United States). "I have been practicing dentistry for over 40 years. In that time, I've gained a deeper understanding of my patients, their fears, and their treatment. Patients often come to our office feeling anxious — as if there's absolutely no possibility of ever having a comfortable dental experience. But with our patient-focused philosophy (and the most advanced techniques and technology available), the Advance Dentistry team is able to remove our patients' fears and provide gentle, advanced dentistry that they can count on."

James Smith
DDS

Dr. Smith received his dental degree in 1980 from The University of Alabama School of Dentistry and completed his endodontic residency there in 1982. He has been in private endodontic practice for over 36 years and is an adjunct assistant professor with the Department of Endodontics at The University of Alabama at Birmingham School of Dentistry. Dr. Smith has co-authored an article that was published in the November 2014 Journal of Endodontics. His practice is located in Birmingham, Alabama.
