

THE ROOT CANAL FORUM: PATIENT EXPERIENCE, PRACTICE GROWTH, AND PEER CONNECTION

Featuring GentleWave® Technology

Sound Science®
ACADEMY

PROGRAM OVERVIEW

The first annual Root Canal Forum for the General Dentist is a leading educational and networking experience created by clinicians, for clinicians, supporting the advancement of endodontic treatment in the general practice. Established to support professional and personal growth through education and peer discussion, this two-day forum will offer continuing education sessions led by nationally recognized instructors, as well as activities to promote networking and connection. For those who have not received a GentleWave certification, we will be offering an opportunity to have a hands-on experience with the GentleWave Procedure on extracted teeth.

Come join us and explore innovative avenues to elevate the patient experience, impact practice production, and develop a same-day workflow for root canal therapy.

PROGRAM OBJECTIVES

- Understand the GentleWave Procedure and how it cleans and disinfects the natural anatomy with minimal instrumentation.
- Learn how technology can support consistency and predictability as well as incorporation of a one-day endo-restorative treatment model.
- Discuss challenges and opportunities to improve the overall patient experience and workflow for root canal therapy.
- Review clinical case studies and mentor-led discussions of treatment and outcomes.
- Explain the benefit of CBCT and review navigation techniques to minimize interpretation time and maximize diagnosis.
- Apply learnings in a hands-on clinical lab with instructor oversight (for those who have not received GentleWave certification).

OCTOBER 20–21, 2023

THE JOSEPH NASHVILLE LUXURY COLLECTION HOTEL

401 Korean Veterans Blvd
Nashville, TN 37203
