

# THE ENDODONTIC FORUM: SCIENTIFIC INNOVATION FOR THE MODERN ENDODONTIST

Featuring the GentleWave® System

## PROGRAM OVERVIEW

The first inaugural Endodontic Forum is a leading educational and networking experience created by clinicians for clinicians with a common goal: to elevate the standards of endodontic treatment. This two-day event will offer clinical and practice management resources to implement the latest technology advancements into your day-to-day, elevating the quality and profitability of your endodontic practice. For those who have not received a GentleWave System certification, we will be offering an opportunity to have a hands-on experience with the GentleWave Procedure on extracted teeth.

## PROGRAM OBJECTIVES

- Review how new technology — such as the GentleWave System — can elevate endodontic treatment while preserving tooth structure, improving patient experience, and increasing practice efficiency.
- Examine the GentleWave System Mechanism Of Action and the science behind its safety and efficacy.
- Discuss opportunities for creating a more predictable and simplified workflow through use of technological advancements.
- Explain the benefit of CBCT and review navigation techniques to minimize interpretation time and maximize diagnosis.
- Apply learnings in a hands-on clinical lab with instructor oversight (for those who have not received GentleWave System certification).
- Review clinical case studies and mentor-led discussions of treatment and outcomes.

## MARCH 8–9, 2024

### EPIC HOTEL MIAMI

270 Biscayne Boulevard Way  
Miami, FL 33131

## PROGRAM DETAILS

**Friday Sessions:** 8:00AM to 4:00PM EST
